

GREEKS ADVANCING FROM SMYRNA BASE

Take Several Towns to North and East, Turks Losing Heavily.

MOVE TO ISOLATE KEMAL

Aim at Junction of Bagdad and Angora Railways to Cut Off Nationalists.

SMYRNA, June 26.—Greek forces entered in the offensive against the Turkish Nationalists in Asia Minor and have taken a number of towns, according to an official communiqué from Greek army headquarters under Thursday's date. Confirmation of the recently reported annihilation of the Thirteenth Turkish army corps has been received here. "Our troops, advancing in four directions, have taken Soma, Derekivi, Mendokhora and Chaus-Kiuek, despite the strong resistance of the enemy, who fell back in disorder. Three pieces of heavy artillery, numerous machine guns, some rifles, a ten car train, numerous prisoners and the 135th Regiment's flag fell into our hands.

"Our losses were one captain killed and ten other officers wounded, and twenty men killed and one hundred wounded. The enemy losses were considerable. Fifty bodies were found on one regimental front. Our infantry displayed remarkable dash."

Soma is approximately sixty miles. Mendokhora one hundred miles and Chaus-Kiuek 110 miles northeast of Smyrna. The town of Derekivi does not appear on available maps.

CONSTANTINOPLE, June 25.—The Greek movements in Asia Minor are along the two railroads connecting with the Bagdad line and the Sea of Marmora, and manifestly are designed to frustrate the offensive being prepared by the Turkish Nationalists.

Landing of Greek troops at Pandermas is expected for the purpose of assisting in the occupation of the Pandermas-Smyrna railway. It is generally believed here that Eskişehir, where the railway crosses the south, forming a junction with the Bagdad line leading to Angora, is the chief objective of the Greeks, as its capture would isolate the Nationalist Government at Angora. Mustafa Kemal Pasha, the Nationalist leader, is reported to be at Eskişehir with his general staff.

LONDON, June 26.—British warships at anchor before the town of Ismid, Asia Minor, have violently bombarded the Turkish line stretched around that place and have inflicted heavy losses, it being estimated that 1,000 Turks have been killed, according to an Exchange Telegraph Company despatch from Athens.

Reports from Ismid, the message states, indicate that violent fighting continues there. Three shells from artillery fired by Turkish Nationalists, under the command of Mustafa Kemal Pasha, have fallen in the town and have caused damage.

FRANCE TO SUPPORT GREEK AGAINST TURK

Will Aid in Syrian Expedition With Troops There.

Special Cable Despatch to THE SUN AND NEW YORK HERALD. Copyright, 1922, by THE SUN AND NEW YORK HERALD.

PARIS, June 26.—Premier Millerand's Near East policy returned another victory for him this morning, when, faced by Socialist opposition, he obtained a vote of 478 against 80 for the credit for maintenance of the Syrian expedition under Gen. Gouraud.

As the result of M. Millerand's declarations the Chamber now has a definite idea how far France is willing to go in regard to the Turkish treaty. Amid the applause of the Chamber of Deputies, the Premier indicated that French support of the military movement by the Greeks against the Turkish Nationalists would not exceed "the proportion of effective French possesses in the Near East," and that French policy would be one of diplomacy rather than of sabre rattling.

"We are attached to Syria by traditions, and we have not the right to desert her without compromising our position as a great Mediterranean and Moslem Power," he said. "We will remain to carry out the policy assigned to us by the League of Nations, to defend the population and to collaborate with Turkey in Cilicia for the pacification and economic welfare of these populations."

Even this broad assertion did not satisfy the Left and M. Millerand finally promised the Government would limit so far as possible the territory to be occupied, reducing its effectiveness to a minimum and attempting settlements before using force.

ALLIES, MASTERS IN NEAR EAST, SAYS FOCH

Marshal Emphasizes Value of Keeping in Harmony.

PARIS, June 26.—Allied nations are masters of the situation in the Near East, as elsewhere and, if in complete harmony, can employ all the forces at their disposal to carry out their policies which are "soberly proportioned to their interests," said Marshal Foch in an interview to-day.

"The allied position in the Near East," the Marshal declared, "is that of a liability company, limited, in which no shareholder may say it was his capital which made the company's operations successful. The Greek army is one of our assets, and we are using it in the corporate interest."

Discussing German disarmament, he asserted this matter was not the destruction of 1,500 cannon, but the overcoming of the "hostile and militarist spirit of the German people."

"If such spirit," he continued, "should again be translated into action, the arm it would use would be the most terrible and swiftest on earth—the airplane. The way to guard against renewed aggression is to increase the distance that separates us from the enemy. When we leave the Rhine Germany is within snatching distance of Ostend, from which she could lay London waste in one night between dark and dawn. Until that evil spirit dies out it is our duty to the next generation to see that our precautions are never abandoned."

DISARMING OF IRISH DISLOYALISTS BEGUN

Five Ulster Volunteers Are Stripped of Weapons in Londonderry.

'QUIETEST' NIGHT YET

Sir Nevil Macready's Troops Are Effective—He Has Power 'to Go to Limit.'

Special Cable Despatch to THE SUN AND NEW YORK HERALD. Copyright, 1922, by THE SUN AND NEW YORK HERALD.

DUBLIN, June 26.—With the arrival of Sir Nevil Macready's reinforcements in Ireland to-day the campaign of disarming "disloyalists," outlined by Denis Henry in the House of Commons recently, was begun. Five Ulster volunteers were disarmed by the soldiers in Londonderry. Whether Sir Nevil's forces will disarm the Sinn Féiners as well is the question which may spell the continuance of the present status or a general outbreak in Ireland.

Mr. Henry, in suggesting the disarming policy, avoided the distinction when he was asked who the "disloyalists" were. "Those having arms unauthorized by the Government," was his reply. The correspondent of THE SUN AND NEW YORK HERALD has learned that Sir Nevil and Premier Lloyd George had a conference Thursday at which the military commander of Ireland got authority to "go the limit" in restoring order in Ireland. Troops began to move soon afterward.

The mettle of Sir Nevil's troops was shown in Londonderry, where the first time they interfered with machine guns the tumultuous city was quieted into what Mr. Henry called "the quietest night yet."

LONDONDERRY, June 26.—There has been no shooting in Londonderry during the last twenty-four hours. The troops are still on guard, but the city is resuming normal activities. The military arrested five Ulster volunteers who were guarding the Waterside post office.

DUBLIN, June 26.—The railway situation is gradually becoming worse. The railway men to-day unanimously resolved to continue their refusal to operate trains carrying troops, ammunition or police.

Southeastern Line trains were held up on account of police and soldier passengers. In consequence other lines were blocked. The important centres of Cork, Limerick and Waterford suffered from this suspension.

A group of armed men to-day forced the Sligo jail and released Sinn Féin prisoners.

'NO IRISH REPUBLIC. NO ULSTER COERCION'

Viscount French Reiterates Britain's Position.

BELFAST, June 26.—Viscount French, Lord Lieutenant of Ireland, who is here for the unveiling of war and Titanic memorials, speaking at a luncheon to-day said:

"It cannot be too clearly shown that the Government never will, under any circumstances, listen to any proposal either for the establishment of an Irish republic or the coercion of Ulster. We desire above all things to give the country the utmost measure of political freedom, and hope, sometimes against hope, that a peaceable reconciliation will eventually be effected, but having said so much, I would be wanting in my duty if I did not repeat what I have said before."

Gifts Made to Hospital.

PARIS, June 26.—George Edward Kessler of St. Louis has given 250,000 francs to the American hospital at Neuilly. It was announced to-day. Louis IX. Beaumont of the Aero Club of America yesterday gave Hugh C. Wallace, the American Ambassador, 100,000 francs for the hospital.

The hospital to date has received 2,750,000 francs toward the 7,000,000 franc fund being collected for the purpose of enlarging the institution.

Wants Prisoners' Labor to Offset Indemnity

PARIS, June 26.—Germany feels she should be recompensed for the labor of German war prisoners in France, at least to the extent of lightening somewhat her indemnity burden. Her mathematicians have figured that the prisoners improved French roads to the extent of 215,000,000 marks. Germany now makes claim to the Reparations Commission, so the *Petit Parisien* reports, that this sum should be deducted from the amount she owes France by the terms of the Versailles treaty.

fore, that we are determined the Irish people shall enjoy the same protection as the people of other parts of the Kingdom, and the Government will not hesitate to employ all the forces at its disposal to attain this."

Oklahoma Wheat Harvested.

OKLAHOMA CITY, June 26.—Three-fourths of Oklahoma's wheat has been cut, with no appreciable damage to the crop from insects, smut or rain, according to H. H. Schultz, Federal crop reporter for the State, who returned to-day from an inspection of the wheat sections.

DENIES RAIL MEN SET 22 P. C. RAISE

Chairman Barton Says It's a Question of 'Classification.'

Special to THE SUN AND NEW YORK HERALD. CHICAGO, June 26.—A report that the railway labor board was considering an average increase of 22 per cent., which received unofficial circulation together with the official report of the July 20 date of the award, was denied by Chairman Barton to-day.

"We are not considering percentage increases," said Judge Barton. "One of the great problems was that of alleged unfair differentials between classes of employees."

The wage award alone, however, will not appease the "vacationists," who number 250,000, according to their own statements and 60,000 according to the statements of the Brotherhood leaders. They want the wage increase, and also the restoration of their status before they quit work.

The four Brotherhood chiefs left for Washington to-night. They are W. G. Lee, S. E. Habering, L. E. Sheppard and Timothy Shea. "Nothing to do but wait until July 20," said Mr. Lee, president of the Brotherhood of Railway Trainmen.
